# Produktserie P41 *product series P41*

**Cubical design, space-saving mounting with low installation-height!  
Teach-in via switch!**

- cubical design (100 x 36 x 32,5mm)
- wide detection ranges (30 to 3500mm)
- analogue sensors with I- or U- characteristic
- digital sensors with 2 outputs (PNP or NPN)
- additional „Echo“ LED
- Teach-In via pushbutton
- windows- or hysteresis-mode
- synchronization of more sensors possible

Hoffmann+  
Krippner

## Produktserie P42

mit integrierter Auswerteelektronik

### product series P42

*with integrated signal conditioner*

Produktserie / product series \_\_\_\_\_

Reichweite / sensing range in cm \_\_\_\_\_

Bauform / housing: M30 (M30) / Q40 (Q40) / Q50 (Q50) \_\_\_\_\_

Gehäusematerial / housing material: Kunststoff / plastic (PBT) / Edelstahl / stainless steel (ST) \_\_\_\_\_

Ausgang / Output: 0 .. 10 V + 2xPNP (U2P)

4 .. 20 mA + 2xPNP (I2P)

0 .. 10 V + 4 .. 20 mA + 2xPNP (UI2P)

0 .. 10 V + 4 .. 20 mA + 2xPNP (UI2N)

Schnittstelle / interface: RS232 (RS232) / RS485 (RS485) \_\_\_\_\_

Steckverbinder / connector: M12 (CM12) / Binder Serie 723 (C723) \_\_\_\_\_

ATEX (EX) \_\_\_\_\_

P42-300-M30-ST-U2P-RS232-C723-EX

## Produktserie P42

für externe Signalverarbeitung

### product series P42

*for external signal conditioner*

### **Produktserie / product series**

### Reichweite / sensing range in cm

Bauform / *housing*: Box (BOX)

Ausgang / output: 0 .. 10 V + 4 .. 20 mA + 2xPNP (UI2P)

Schnittstelle / interface: RS232 (RS232)

P42-400-BOX-UI2P-RS232

## **Produktserie P42**

*product series P42*

Set: externe Signalverarbeitung + Auswerteelektronik

Set: external signal conditioner + signal conditioner

### **Produktserie / product series**

### **Reichweite / sensing range in cm**

Bauform / housing: Auswerteelektronik / signal conditioner + M30

#### Auswerteelektronik / signal conditioner + Q40

Ausgang / output: 0 - 10 V ± 4 - 20 mA ± 2xPNP (UITP)

Schnittstelle / interface: RS232 (RS232) –

P42-400-SET/M30-U12P-RS232

#### **Produktserie / product series**

Reichweite / sensing range in cm

Bauform / housing: Auswerteelektronik / signal conditioner + M30

Auswerteelektronik / signal conditioner + M30

Auswerteelektronik / signal conditioner + Q40

Ausgang / output: 0 .. 10 V + 4 .. 20 mA + ZXPNP (UIZP)

Schnittstelle / interface: RS232 (RS232) -

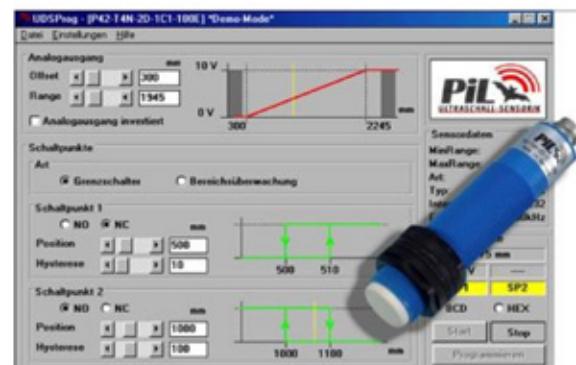

## PRODUCTSERIES P42

For complex applications – programmable via software!

- cylindrical design (M30)
- cubical design (80mm x 80mm)
- wide detection ranges (100 to 8000mm)!
- programmable via easy understandable software
- sensors with external signal conditioner
- interfaces RS232 and RS485
- additional „Echo“ LED as alignment aid
- analogue outputs (0-10V / 4-20mA)
- with 2/4 additional digital outputs
- adjustment of switching distance,  
hysteresis and outputs easy via software

For demanding applications with more than one switching point or variable output-characteristic, window-, hysteresis-mode, Teach-In via remote!!

- cylindrical design (M12 – M30)
- cubical design
- detection ranges (200 to 6000mm)
- narrow sound cones with small blindzones
- analogue sensors with variable I- and U-characteristic
- digital sensors with 2 outputs (PNP or NPN)
- additional „Echo“-LED as alignment aid
- Teach-In via remote / window- and hysteresis-mode / temperature compensation

}

**Cubical sensors M30 with analogue output (0-10V or 4-20mA) and two additional digital outputs (PNP or NPN)!  
Teach-In via pushbutton!**

- cylindrical design (M30)
- detection range from 150mm up to 3500mm
- analogue output (0-10V or 4-20mA)
- + 2 additional switching points (PNP)
- „Echo“ LED
- Teach-In via pushbutton

# Produktserie P47

## *product series P47*

Produktserie / product series

Reichweite / sensing range in cm

Bauform / housing: M18 (**M18**) / M30 (**M30**) / Q50 (**Q50**)Ausgang / output: PNP NO (**PNO**) / NPN NO (**NNO**) / 0 .. 10 V (**U**) / 4 .. 20 mA (**I**)Steckverbinder / connector: M12 (**CM12**) / Kabel / cable (2m) / Kabelstecker / cable connector (**m3CM12**)Schranke / barrier (**B**)

**For basic applications! Easy adjustment of digital sensors via potentiometer! Analogue sensors are preset with fixed characteristic curves!**

- cylindrical design (M18 – M30)
- cubical design (80mm x 80mm)
- detection ranges from 60mm up to 5000mm
- analogue characteristic (I or U) are preset
- digital (switching) sensors with 1 NO output (PNP or NPN)
- easy adjustment of the digital sensors via poti
- synchronisation of more sensors possible
- single-barrier type available

# Produktserie P48 *product series P48*

P48-30-R30-PNC-2m-B

Produktserie / product series \_\_\_\_\_

Reichweite / sensing range in cm \_\_\_\_\_

Bauform / housing: R30 (**R30**) / R50 (**R50**) \_\_\_\_\_

Ausgang / output: PNP NO (**PNO**) / NPN NO (**NNO**) / PNP NC (**NNO**) / NPN NC (**NNC**) \_\_\_\_\_

Kabel / cable (**2m**) \_\_\_\_\_

Schranke / barrier (**B**) \_\_\_\_\_

**Cubical Ultrasonic-Barriers with high switching frequencies!**

- cubical design (101 x 36 x 32,5mm)
- detection ranges (300 to 1100mm)
- connector M12
- digital output with 1x NO (PNP or NPN)
- high switching frequencies (150Hz)!

# Produktserie P49

## *product series P49*

P49-200-M18-PNO-CM12

Produktserie / product series

Reichweite / sensing range in cm

Bauform / housing: M18 (**M18**) / M30 (**M30**) / Q50 (**Q50**)

Ausgang / output: PNP NO (**PNO**) / 0 .. 10 V (**U**) / 4 .. 20 mA (**I**)

Steckverbinder / connector: M12 (**CM12**) / Kabel (**2m**) / Kabelstecker (**m3CM12**)

**Cost effectiv series for basic applications with high quantities!**

- cylindrical design (M18 – M30)
- cubical design (80mm x 80mm)
- large detection range from 30 up to 6000 mm
- small blind zone
- analog sensors with fixed current or voltage characteristic curve
- switching sensors with 1 output NO (PNP or NPN)
- easy adjustent of digital types via remote!

Hoffmann+  
Krippner

# Produktserie P53 *product series P53*

P53-150-M30-PNO-CM12

Produktserie / product series

Reichweite / sensing range in cm

Bauform / housing: M30 (**M30**) / Ø30 (**D30**)

Ausgang / output: PNP NO (**PNO**) / PNP NC (**PNC**) / 0 .. 10 V (**U**) / 4 .. 20 mA (**I**)

Steckverbinder / connector: M12 (**CM12**)

**Ultrasonic-Sensor P53... fully encapsulated stainless steel housing – for the *roughest* environmental conditions!**

- robust STEEL HEAD - housing (1.4571)
- cylindrical design (M30 or Ø30)
- detection range from 150mm up to 1500mm
- higher temperature range up to 80°C
- temperature compensation
- high sealing IP68 / IP69K
- analogue and digital outputs (PNP NO / 0-10V / 4-20mA)
- various application possibilities due to insensitivity of dust, moisture, steam, ....
